RE: Sahara Mine Suspension
ACT/015/026
Emery County, Utah

Dear Mr. Roberts:

The information submitted to the Division in your letter of May 24, 1983 clears up any problems which may have been forseen. Thank you for completing the requests within the timeframe originally suggested last February. At this time the Division has no reason to prohibit an additional period of suspension from commencing from this date through a two year period ending at the same time in 1985. Should any changes from this status occur please notify our office.

It is unfortunate that a meeting on-site at the Hillside Complex and the additional inspections of the Straight Creek and Repete Mines have been delayed. I hope it will be possible to arrange your schedule to meet with the Division during the month of June or early July.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR
MINED LAND DEVELOPMENT
